

# KIDS FOR KIDS

Feed a family of 4 and pay for a child's education from 5th grade through high school for \$100.

## HOW DOES IT WORK?

Simple.

A female goat is given to the child. The child is taught how to care for the goat. The goat has kids. The child is taught how to raise the kids and sell some off for money. The female goat now produces milk. The milk is sold and consumed by the family. As long as the goat is cared for, after 3 years, it will support a family of four. PLUS, as long as the child has the goat, their education is paid for.

## HOW CAN YOU CONTRIBUTE?

REFER!!! From now until November 30th I am accepting all new patients for \$100. All of the first visit fee goes to fund this project.

The goal is to send \$5000 to Ghana before Christmas. I need to see 50 new patients to help 50 families. Help me make this happen.

This will change lives in a way that you can't imagine. Please help me make this a reality.
